

FREE Blogs!

Contributed by Chenell - Website Admin
Saturday, 21 June 2008

While we have the resources available, got HiCy? is offering free blogs to HiCy patients. We will se you up with your own WordPress weblog installed on your own subdomain (<http://yourname.gotHiCy.com>).

We only request that we can use your RSS feed as part of the User Blogs section of this site.

Please e-mail the admin with your requested subdomain url and we will get you all set up. :)
